

No other roofing material matches slate for beauty or durability. A fine slate roof, properly installed, can last a century or more. That's why we offer a 75-year warranty.

Meets or Exceeds US and British Standards

Roofing products from International Slate & Stone meet the highest industry standards for strength and durability, meeting or surpassing all US ratings and passing the rigid British 680 with ease.

Exceptional Purity and Density

In fact, International Slate & Stone's Ebony roofing tiles are so smooth and dense they can be used for pool table surfacing or countertops. The slates are mined from deep within our rich-veined quarries. They're formed under tremendous pressure by the same geological forces that creates magnificent diamonds.

Rigid Ten-Step Testing

Once quarried and processed, our fine roofing slates must pass the rigid criteria set by our tough ten-step testing process. We reject all slates not meeting our own requirements.

Choice of Colors and Shapes

International Slate & Stone roofing tile are available in Antique Green,

Charcoal Gray, Desert Storm and Ebony.

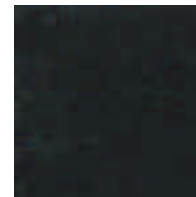

We offer a choice of shapes, including fish scale, rectangular and square. If you do not see the shape you need, let us know and we will provide custom shapes to fit your project needs.

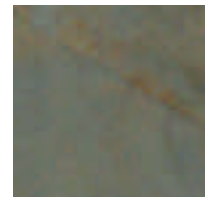

1102QX ANTIQUE GREEN

1103 CHARCOAL GRAY

1105 EBONY

1104C DESERT STORM

Custom Nail Holes and Scratch Lines

All nail holes are custom placed based on customer specifications. The tiles can be marked with "Scratch Lines" for easy placement—all at no additional cost.

Orders

The number of roofing squares in a crate varies from 3 roofing squares to 3.8 roofing squares per crate depending

on the dimensions of the tiles. Minimum order is four crates. Sorry, we cannot accept orders for partial crates. Your best pricing value is by the full container load.
